How the program runs and its output

When we run the program, following output is shown:

```
PS D:\std_man_sys> python main.py

1. Login
2. Get enrolled
3. Exit
Enter your option :
```

We see we have login option, get enrolled option for those who want to be enrolled and to exit the program.

Let's log in first. First, we have 5 characters, they are:

1. Student
2. Teacher
3. Exam Department
4. Administration
5. People who want to be part with us
   So, let's begin with being a student. We already have data so we will begin with student id std0008.
   After the successful login we see:

```
1. Login
2. Get enrolled
3. Exit
Enter your option : 1

================================
======== LOGIN INTERFACE ========
================================

Enter uid : std0008
Enter password : 45c516bc56d10ee4

1. View profile
2. Update
3. Grades
4. ECA
5. See Analytics
0. Logout
Choice :
```

We have the following option here are the screenshots of the following output:

```
====================

Field are as follow :
id,name,age,gender,address,email,contact

====================
Field : id
ID cannot be updated..
```

```
============================
======== MY PROFILE ========
============================

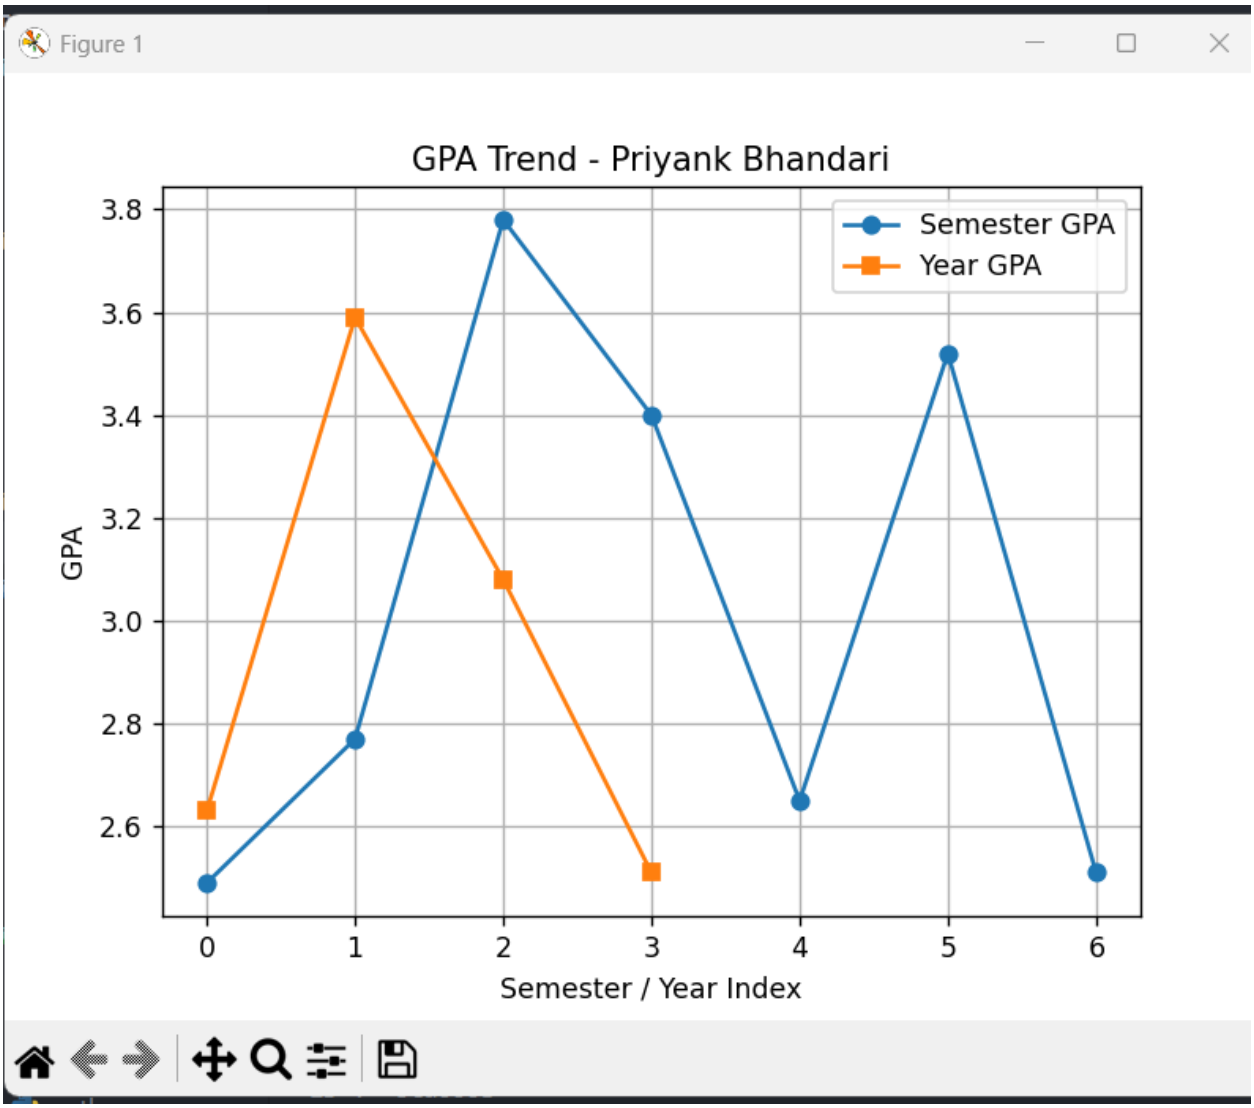
        id              name age  gender address           email     contact
8  std0008  Priyank Bhandari  20  Female     KTM  priya@gamil.com  9870996699
```

```
       id  name enroll_year current_year                          sem_gpa             year_gpa
3  std0008  2021    BSc CSIT           4  [2.49,2.77,3.78,3.4,2.65,3.52,2.51]  [2.63,3.59,3.08,2.51]

==================
```

```
=====================
         id          name       eca  year
16  std0008  Science Club  Academic  2021
17  std0008    Music Band  Creative  2022

=====================
```



Now let's go for the teacher:
We will only show his extra features.

```
1. View profile
2. View student
3. See student analytics
0. Logout
Choice :
```

```
hoice : 2
nter student id : std0008

==================

       id              name age  gender address            email     contact
  std0008  Priyank Bhandari  20  Female     KTM  priya@gamil.com  9870996699

==================

======================
======= GRADES =======
======================

       id  name enroll_year current_year                              sem_gpa               year_gpa
  std0008  2021    BSc CSIT            4  [2.49,2.77,3.78,3.4,2.65,3.52,2.51]  [2.63,3.59,3.08,2.51]

==================

        id          name       eca  year
6  std0008  Science Club  Academic  2021
7  std0008    Music Band  Creative  2022
```

This is the feature of teacher and let's go the administration section:
Administration has the feature to see the people who are interested in joining us, add students and remove them with all features of student teacher.
Logged in as admin.

```
Enter uid : adn002
Enter password : 9716784bc3643424

1. View profile
2. View Student
3. See student analytics
4. Add user
5. Remove user
6. Enrollments
0. Logout
```

Now we will do see the option to add, remove and enrollers one.

```
Choice : 4
Enter role (std/thr/exm/adn) : std
Enter name : hehe
Enter age : 23
Enter gender : m
Enter address : hehe
Enter email : hehe@gmail.com
Enter contact : 456789
Enter password : ps
Created id : std562
```

After we add someone, id is generated by the program itself. Now we will remove that user we have just added.

```
1. View profile
2. View Student
3. See student analytics
4. Add user
5. Remove user
6. Enrollments
0. Logout
Choice : 5
Enter uid : std562
```

Now we will see the option of enrollment.

```
0. Logout
Choice : 6
            name  age  gender address            email     contact     role
0  Shreya Aamatya   16  female     TBC  shreya@gamil.com  9876543210  student
```

Let’s be an exam department officer.

After login and being an exam department officer we will see:

```
1. View profile
2. View student
3. See student analytics
4. Update student
5. Update grades
0. Logout
```

We see these options:
Let’s work on the special option that is updating grades:

```
Choice : 5
Enter student id : std0002

=======================
======== GRADES ========
=======================

Sem GPA list : 3.7,3.8,2.8,3,3.2,3.6,2.7,3
Year GPA list : 3,3,3,3

====================
Semester gpa list has been updated with new value :  3.7,3.8,2.8,3,3.2,3.6,2.7,3

Year gpa list has been updated with new value :  3,3,3,3

====================
```
